

FAA RUNWAY SIMULATOR

Name _____

Class _____

OBJECTIVE

Interpret, understand, and apply air traffic control instructions on the ground in a simulated environment.

PROCEDURE

1. Access the FAA Runway Safety Simulator at <https://www.runwaysafetysimulator.com>.
2. Complete the introductory video about distractions.
3. Complete Scenarios 1 and 2.
4. After completing each scenario, backtrack and repeat the scenarios with other choices (including incorrect ones), to investigate other potential outcomes.
5. Answer the question below in your groups.

QUESTION

As a pilot, what can you do to increase your situational awareness on the ground, even at complex airports, and reduce the possibility of ground incidents?

PROPRIETARY
